

The Single European Marketplace for Digital Public Services

HACKATHON

We would like to provide you with the opportunity to explore our cloud platform and to engage with our business model, which would enable you sell and subscribe to services from across Europe.

WHAT?

- One Tech Day to migrate your public service application to our MarketPlace
- One Networking Day between the Service Providers and Service Subscribers

WHO?

- If you have an application for public services
- If you are a public administration who would like to see the latest innovative applications which could support your local authority

HOW?

- Register to one of the 3 Hacks through our website
- If you are selected we will contact you with guidance on how to prepare for the Hackathon

CLOUDOPTING?

- CloudOpting is a three-year Project accomplished by a pan-European consortium of 10 partners and is co-funded by the EU ICT Policy Support Programme (ICT PSP) under the Competitiveness and Innovation Framework Programme (CIP).

- CloudOpting is the European App Store for public services, which aims to provide a cloud based platform for governments to deliver services to citizens whilst reducing administration and IT costs. The CloudOpting platform will comprise of a cloud infrastructures and online tools that will help public administrations to flexibly and effectively migrate their services to the cloud.

WHERE AND WHEN ?

It will be held in three different countries:

- Tech Day, Sant Cugat del Valles (Spain) - 2nd Nov, 2016
- Tech Day, Corby (United Kingdom) - 9th Nov, 2016
- Tech Day, Karlshamn (Sweden) - 23rd Nov, 2016
- and a Networking Day (the three cities together) - 1st Dec 2016

WHY CloudOpting?

Service Providers:

- Have a central market place to sell services
- Find a wider audience in both your country and throughout Europe
- To increase the visibility of the applications and services to a EU Marketplace
- To decrease your applications time to market for public administrations
- Reduce your selling cost
- To join a social network of cities that are demanding your services

Services Subscribers:

- To gain access to a wide range of applications in the CloudOpting catalogue suitable to your organisation
- To facilitate the access to services in terms of prices
- Decrease the time-to-market of your applications through a procurement
- Collaborate with cities across Europe
- Follow the most innovative trends and applications in a EU marketplace
- In big cities , avoid duplicated services
- Take learning and best practice from the cities leading in the smart cities and virtual service field

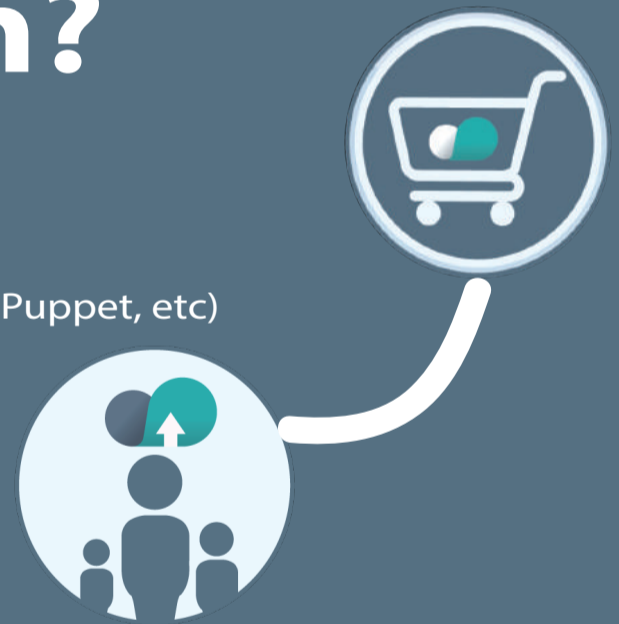

WHY the Hackathon?

Service Providers:

- Discover state of the art technologies and practice with them (Doker, Puppet, etc)
- Obtain feedback from public administrations on your services
- Be in the CloudOpting Public Services Catalogue
- Know if your services are CloudOpting compliant ASAP

Services Subscribers:

- Understand the current trends in the cloud industry
- Consider new business scenarios to adapt your IT strategy (explore new concepts for public applications and find out how much you can save)
- Enhance your international networks of cities and share experiences and best practice
- Have a wide range of applications in a catalogue that can be suitable to bid
- Foster local economic development
- Provide local companies the tools and IT framework with which to grow

AWARDS

- Migrate a Service : Have the opportunity to be in the CloudOpting Marketplace.
- Be in the CloudOpting Public Services Catalogue.
